Switch On To Efficiency

To forge a built environment that is more energy-efficient, more sustainable and more pleasing to work and live in by harnessing the power of the Internet of Things (IoT), Big Data and Artificial Intelligence (AI)

Eniscope 8 Hybrid

Developed over ten years and in action with the likes of IBM, 7-Eleven, KFC and many more the world over. Real-time energy monitoring down to a minute-by-minute level.

But Eniscope is not just a monitoring device - it's a IoT hub, the dependable source of the LoRa network our Air products operate on.

1. 16,000+ worldwide active installations
2. Hardware & Cloud software combined solution
3. Easy to install
4. Proprietary API for third-party integrations.
5. Infinitely scalable across large estates
